

QUOTE Q70031

MARTIN CAMERON

Prepared for:

Client Name: Martin Cameron
Client Address: 136 State Highway 26, RD6, Hamilton 3286

Quote Details:

Quote number: Q70031
Date: 14 March 2022

Attention: Martin Cameron
Phone: 022 444 4334
Email: martin@cameron.co.nz

Project details:

Project Name: Martin Cameron
Project Address: 136 State Highway 26, Newstead 3286

No. items: 27
Joinery Colour: Popular Powdercoat
Colour Range
Hardware type / colour: Urbo Colour Matched
Suite type: Metro

Origin Residential is pleased to submit the following price to supply aluminium joinery for your project:

TOTAL: \$86,922.00, excluding GST.

This quote is based on the following supplied documentations:

- a. Based on plans drawn by Don Cowie Draughting & Design Services Ltd and dated May 2021.

All items, quantities and sizes are as per the attached window schedule. Further details are provided in the following schedules of design notes, allowances, inclusions and exclusions. Please review all details carefully. We aim to provide full and comprehensive quotes. If you have sourced multiple quotes and find a significant difference between them, please feel free to contact our team. We can work through the quote with you to ensure all details, inclusions and exclusions are correct and directly comparable.

Your quoted price is for all items manufactured in one run and delivered in one load, which is the most cost effective approach. If you require split manufacturing and delivery to site, additional costs may be incurred.

Your quote was prepared by Matt Parker, please email mattp@originresidential.co.nz with any queries. We appreciate the opportunity to work with you on this project.

Yours faithfully,

Carl Maxwell
Business Development Manager

WE TAKE CARE OF THE DETAIL

You can rely on our experienced team to give you expert guidance designing the window and door solutions for your home. We take your design concept and layer in all the detail that will ensure you get a great end result. For a seamless build process, we can work with your architect and builder, providing advice, solutions and detailed shop drawings. We're here to work with you and your building team through the process, and deliver exceptional windows and door solutions for your home.

THE PROCESS

ANNETTE JOWSEY Residential Manager

A Licenced Building Practitioner with 30 years experience, Annette has an unparalleled knowledge of aluminium window and door products for residential projects. Working in collaboration with architects and builders, Annette can advise on products, design and functionality, technical specifications and installation solutions for bespoke and complex designs.

Talk to Annette when your design concept is firmed up, and it's time to get the detail sorted.

Conceptual design

Project plans drawn up

Windows and doors selected

ELDENE MULLER Production Co-Ordinator

With 10 years in the industry, Eldene has a thorough knowledge of aluminium joinery products and the building process. She has a sharp eye for detail, completeness and accuracy through her background in project estimating – a skillset well suited to her role coordinating project documentation for production scheduling and manufacturing.

Eldene gets involved when you've finalised design, selected your window and door products, and its time to confirm specifications and schedule manufacturing.

QUOTE NUMBER: Q70031

DESIGN NOTES

- a. Please note the tint in items 9 & 18 will be darker than the rest as the Tint is 6mm thick compared to 5mm for the rest in order to meet deflection rates.

ALLOWANCES, INCLUSIONS AND EXCLUSIONS

Aluminium window and door products:

- APL Metro suite has been allowed.
- Allowed for 19mm pre-primed Pine H3 liners, with 01117 Aluminium liner infill to sills of full height items.

Glass and glazing

- Grey Tint Double Glazing complies with NZS4223.
- Glaze on site to items over 50kg.
- Etchlite glazing has been allowed as obscure glass.
- No allowance for any specialty glass including high performance etc.

Hardware

- Helix window catches have been allowed to opening sashes.
- LCL lever handles have been allowed to hinged door panels.
- Optimum 35mm Backsets with large D-pull handles have been allowed to sliding doors.

Entrance Door

- Door panel – 910w PLA00 Plasma Panel and in a standard powder coat colour with a Mannex finish.
- A 600mm Pull handle in brushed nickel finish with apex turnset and Yale Assure digital deadbolt has been allowed.
- Factory fitting of Entry door panel and lockset has been allowed.

General

- Site measure and site delivery have been allowed. Delivery to be conducted in normal business hours of works Monday to Friday.
- Joinery is designed for a high wind zone.
- Allowed within costings for standard head flashings.
- No allowance for sill, jamb, or any special folded flashings.
- WANZ sill support bars have been allowed to all items.
- No allowance for finishing, painting, staining etc to any timber door panels, liners etc.
- Allowed only Trade clean.
- Changes to the H1 Building Code are due to be implemented from 4 November 2022. This quote may not comply with the new building code requirements, and may not achieve building consent if lodged after 4 November. Please contact our team if you require more information on these changes and the potential implications for your project. Further H1 Building Code changes are anticipated in 2023.

QUOTE INFORMATION

1. Quote valid for 30 days. Due to the current market conditions, pricing may no longer be valid at time of acceptance. Should this scenario arise, Origin Residential will provide an updated quote value at time of acceptance and the opportunity for client acceptance or decline within 5 working days.

Origin Residential reserves the right to pass on to the customer any change in price after acceptance of the customers order which arise from circumstances beyond Origin Residential's control. This situation may arise if the project site measure/agreed size date extends beyond forecast price increases.
2. It is the client's responsibility to ensure window and door sizes are correct, prior to accepting quote. Please check sizes and handing of joinery carefully. All units are shown as viewed from the outside. Trim sizes are listed.
3. **Terms of Trade**
25% deposit on acceptance of quotation with balance due prior to delivery of joinery.
4. **Warranty**
5-year warranty on aluminium joinery and hardware
10-year warranty on film and colour integrity of powder coating.
10-year warranty on double glazing.
5. Manufacture programme to be agreed upon. **Estimated** manufacturing lead time is 20 weeks from site measure or agreed size but to be confirmed at time of final site measure or supplied sizes.
